

# Certified Weed Free Straw & Feed is Required within all Wilderness Areas and Adjacent Trailheads

[36 CFR 261.58(t)]

*Help Keep Our Forests Free of Invasive Plants!*

- Use certified weed free feed
- Within 4 days of your trip, feed pack animals only feed that is certified weed free
- Brush animals thoroughly and clean their hooves before transporting
- Wash vehicles and stock trailers inside and out
- Clean tents and camp gear before moving on to new areas
- Do not graze animals in weed patches
- Avoid traveling through weed infested areas
- Learn to identify native and invasive plants
- Report invasive plant sites to the Forest Service district office or your county weed control board

meadow knapweed

Canada thistle

yellow starthistle

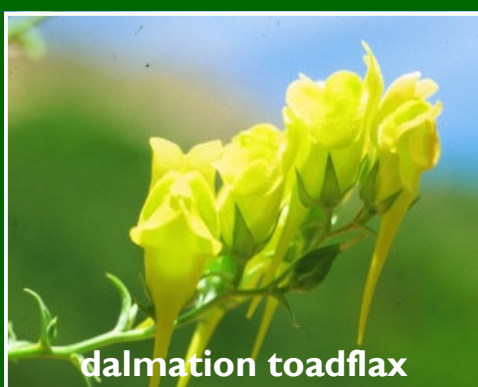

houndstongue
